ScannerStation CLIENT PC:

General specifications (these are the minimum requirements:)

- Intel Pentium **Core2**, min. 2 GHz. Or AMD equivalent
- Windows XP / 2000
- 1024 Mb RAM
- 250 GB harddisk
- Standard soundcard with Line input/Output
- Standard speaker set
- 10/100 Network card
- 2 Free PCI slots (full height PCI slots , not PCI express!)
- Dual LCD wide screen (minimum 19"), preferred 22" widescreen
- Mouse/keyboard
- At least 3 free USB 2.0 connectors

Extra Soundcards* requirements for remote scanners:

1-4 remote scanners: 1 x M-Audio DELTA 1010LT soundcard
Optional: 1 x custom made connection cable

5-8 remote scanners: 2 x M-Audio DELTA 1010LT soundcard
Optional: 2 x custom made connection cable

Extra Soundcards* requirements for recording of local scanners:

1-4 local scanners: 1 x M-Audio DELTA 1010LT soundcard
Optional: 1 x custom made connection cable

5-8 local scanners: 2 x M-Audio DELTA 1010LT soundcard
Optional: 2 x custom made connection cable

* Remark: the maximum total number of M-audio DELTA1010LT soundcards required is 2 since these soundcards can record and playback audio from different sources at the same time.

Speakers:

- Standard speaker set for audio playback
- Per remote site an extra speaker set

If client connects to local scanner(s):

- 1 x free USB port (per local scanner)
- 1 x Uniden USB1 cable (per local scanner)
- 1 x 1/8" - 3 feet stereo audio cable (per local scanner)
